CALCIPLEX BONE & JOINT™ PLUS

A HIGHLY PALATABLE CALCIUM, PHOSPHORUS AND MAGNESIUM SUPPLEMENT WITH VITAMINS A, C AND D, TRACE-MINERALS AND GLUCOSAMINE SUITABLE FOR HORSES ON HIGH GRAIN DIETS, GROWING AND BREEDING HORSES AND ALL WORKING HORSES.
WITH DUST REDUCTION TECHNOLOGY.*

PRESENTATION: An off-white vanilla flavoured powder.

ACTIVE INGREDIENTS: Each 70 g dose contains:

CALCIUM	15 g	VITAMIN A (Retinol)	25,000 I.U.
PHOSPHORUS	7 g	VITAMIN D (Cholecalciferol)	5,000 I.U.
COPPER	200 mg	VITAMIN C (Ascorbic acid)	500 mg
MANGANESE	200 mg	MAGNESIUM	3.5 g
ZINC	200 mg	GLUCOSAMINE (as sulfate)	2 g

CALCIUM : PHOSPHORUS RATIO 2 : 1

PROPERTIES: CALCIPLEX BONE & JOINT™ PLUS is formulated to provide a source of calcium, phosphorus and magnesium, combined with Vitamins A, C and D, essential trace-minerals and glucosamine to assist the uptake, regulation and balance of these vital bone and joint cartilage structural components. An adequate intake of calcium, phosphorus and magnesium is required for bone development, maintenance of skeletal strength and the 'bone bank' of stored calcium, as well as optimum muscle function and to meet increased demands during late pregnancy and lactation in mares. The health, structural function, optimum flexibility and resilience of joint cartilage to 'wear and tear' process are maintained when an adequate intake of Vitamin A, copper and zinc together with glucosamine are included in the diet of growing and working horses. While Vitamin D is responsible for assimilation and utilization of calcium and phosphorus, it also promotes growth and mineralization of the bones, including bones of the foetus. Vitamin C is required in the synthesis of collagen in the connective tissue, proper calcium absorption, and as an antioxidant. In addition, glucosamine is a natural component of many tissue structures such as cartilage, tendon and ligaments, having a lubricating effect on joint cavities and synovial fluid viscosity. The above features make CALCIPLEX BONE & JOINT PLUS the supplement of choice for balancing rations of all horses. For the best results, use CALCIPLEX BONE & JOINT PLUS every day, together with VITAM® PLUS HEALTH & VITALITY™.

DOSAGE AND ADMINISTRATION: Mix CALCIPLEX BONE & JOINT PLUS into wet or dry feed, preferably giving half the dose in each of the morning and evening feeds. One level scoop holds 35 g. The following dose rates provide a minimum of 50-100% of a horse's daily requirement relative to its age, breeding and growth stage or demand during training or exercise; based on the National Research Council's 2007 Nutrient Requirements for Horses.

Horses in Work	70 g	to	140 g
Spelling Horses	35 g	to	70 g
Pregnant Mares	70 g	to	140 g

Lactating Mares	70 g	to	140 g
Dry Mares	35 g	to	70 g
Yearlings	70 g	to	140 g
Weanlings	70 g	to	140 g

MEAT WITHHOLDING PERIOD: NIL.

POISONS SCHEDULE: NOT APPLICABLE

REGULATORY STATUS: EXEMPT

PACK SIZES: 3 kg (Contains 42 x 70 g doses); 15 kg (Contains 214 x 70 g doses).
